SUPREMEX INCOME FUND RECORDS HIGHER REVENUE AND ADJUSTED EBITDA IN THE SECOND QUARTER OF FISCAL 2006

- Not for distribution in the United States or over U.S. newswires -

- Increased quarterly revenue by 2.6% to \$47.7 million
- Increased Adjusted EBITDA by 3.5% to \$11.7 million
- Payout ratio of 84.5% for the guarter

Montreal, Quebec, August 10, 2006 – Supremex Income Fund ("the Fund"), Canada's largest provider of stock and custom-manufactured envelopes (TSX: SXP.UN), today announced increases in revenue and Adjusted EBITDA for the second quarter ended June 30, 2006.

The following financial information includes the results of the Fund for the ninety two-day period ended June 30, 2006 along with the results of the acquired businesses for the six-month period ended June 30, 2005 and for the period from January 1st, 2006 to March 30th, 2006.

For the second quarter of fiscal 2006, the Fund increased its revenue to \$47.7 million compared with \$46.5 million for the corresponding period last year, representing an increase of 2.6%. Revenue grew both in Canada and the U.S. during the second quarter.

Adjusted EBITDA was \$11.7 million for the quarter, up 3.5% from \$11.3 million for the same period last year.

In this quarter, the Fund recorded a non-recurrent charge consisting of a non-cash inventory step-up charge of \$4.3 million related to the inventory revaluation at its fair market value at acquisition, less cost of selling. The inventory was sold during the second quarter of 2006 and, accordingly, the quarter included an additional non-cash charge relating to the inventory sold of \$4.3 million. Consequently, net earnings for the period were \$5.4 million or \$0.172 per unit.

Distributable cash was \$10.7 million for the quarter and \$10.9 million since the inception of the Fund on March 31st, 2006. The Fund payout ratio, or distribution declared as a percentage of distributable cash earned, was 84.5% for the second quarter of 2006 and 82.9% since the inception of the Fund. Lower maintenance capital expenditures in this quarter explain the better than expected payout ratio.

"We are pleased with our second-quarter results which are totally in line with our expectations," said Gilles Cyr, President and Chief Executive Officer of the Fund. "Once again, Supremex demonstrates the stability of the cash flows generated by its operations and how it faces challenges such as currency fluctuations and raw material increases. The acquisition of some of the assets of a Montreal-based label company and the start up of our new 8 color flexo press in this quarter complement our direct mailing offering and will enhance our printing capabilities, thereby enabling Supremex to uphold its status as Canada's leading supplier of envelopes, notably for the direct mail industry."

For the year-to-date, the Fund generated revenue of \$97.1 million, compared to \$97.6 million for the first six months of 2005 and an Adjusted EBITDA similar to last year's of \$23.6 million.

On March 31, 2006 the Fund closed its first initial public offering by way of the issue of 17,500,000 trust units at a price of \$10 per unit for net proceeds of \$165.1 million. On April 28, 2006 an additional 2,500,000 trust units were issued subsequent to the exercise of the over-allotment option, bringing the net proceeds to \$189.2 million.

Conference Call

A conference call covering the results of the second quarter of fiscal 2006 will be webcasted on http://supremex.com and http://events.onlinebroadcasting.com/supremex/081006/index.php at 10:30 a.m. ET on August 10, 2006 and will be available thereafter on these websites.

Forward-Looking Statements

This press release contains forward-looking statements relating to the future performance of the Fund. These statements relate to future events or future performance and reflect current assumptions, expectations and estimates of Management regarding growth, results of operations, performance and business prospects and opportunities. Such forward-looking statements reflect current assumptions, expectations and estimates of Management and are based on information currently available to the Fund as at the date of this document. Forward-looking statements are subject to certain risks and uncertainties, and actual results may differ materially from the conclusion, forecast or projection stated in such forward-looking statements. Such risks and uncertainties are discussed throughout our MD&A for the second quarter of 2006 and, in particular, in Risk Factors. Consequently, readers should not place any undue reliance on such forward-looking statements. The Fund disclaims any intention or obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise unless being held there according to the laws on the applicable transferable securities.

Non-GAAP Measures

References to EBITDA are to earnings from continuing operations before net financing charges, income taxes amortization of property, plant and equipment, intangible assets, deferred compensation and gain on disposal of machinery and equipment.

Adjusted EBITDA is EBITDA adjusted to take into consideration the conversion at Closing of a portion of Supremex' management profit sharing plan into Units and the non-cash inventory step-up charge resulting from the adjustment to fair value of inventory at the date of acquisition of Supremex by the Fund

Management views distributable cash as an operating performance measure. It is also generally used by Canadian income funds as an indicator of financial performance. Distributable Cash is defined as Adjusted EBITDA less net interest expense, maintenance capital expenditures and current income taxes. Distributable cash is important as it summarizes the funds available for distribution to unitholders.

EBITDA, Adjusted EBITDA and Distributable Cash are not earnings measures recognized under GAAP and do not have standardized meanings prescribed by GAAP. Therefore, EBITDA, Adjusted EBITDA and Distributable cash may not be comparable to similar measures presented by other entities. Investors are cautioned that EBITDA, Adjusted EBITDA and Distributable cash should not be construed as an alternative to net earnings or loss determined in accordance with GAAP as indicators of the Fund's performance or to cash flows from operating, investing and financing activities as measures of liquidity and cash flows.

About the Fund

Supremex Income Fund is Canada's largest manufacturer and marketer of a broad range of stock and custom envelopes and related products. Supremex is the only national envelope manufacturer in Canada, with 13 facilities in nine cities across seven provinces and employs approximately 750 people. This nationwide presence enables it to manufacture products tailored to the specifications of major national customers such as leading Canadian corporations, national resellers and governmental entities, as well as paper merchants and process and solutions providers.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2006 Unaudited

1. NATURE OF BUSINESS AND BASIS OF PRESENTATION

Supremex Income Fund (the "Fund") is an unincorporated open-ended trust established under the laws of the Province of Québec pursuant to a declaration of Trust dated February 10, 2006, as may be amended, supplemented or restated from time to time. The Fund was created to indirectly acquire and hold all the shares of Supremex Inc. and the net assets of Cenveo Depew Division ("Supremex"). The Fund remained inactive until it indirectly acquired Supremex on March 31, 2006 (note 2). The statements of earnings and cash flows consist of the operations of the Fund for the 92 days period ended June 30, 2006.

Supremex is a manufacturer and marketer of a broad range of stock and custom envelopes and related products.

The business of Supremex follows seasonal patterns with the highest revenue occurring from August to February due to the seasonal advertising and mailing patterns of its customers whereby higher number of mailings related to events including the return to school, fund raisers and the holiday and tax seasons occurs during that period. As a result, revenue and financial performance for the 92 days period ended June 30, 2006 are not necessarily indicative of the revenue and financial performance that may be expected for a full year.

2. INITIAL PUBLIC OFFERING AND BUSINESS ACQUISITIONS

On March 31, 2006, the Fund completed its initial public offering ("IPO") with the sale of 17,500,000 trust units (the "Units") for \$10.00 per Unit, for total net proceeds of \$165,093,194 after deducting \$9,906,806 which represents the underwriters' total fees of \$9,625,000 and other issuance expenses of \$5,217,723 less related future income taxes of \$4,935,917.

On March 31, 2006, in conjunction with the IPO, the Fund indirectly acquired Supremex from Cenveo Corporation and/or its related companies ("Cenveo") for \$331,641,239. Consideration paid to Cenveo for the acquisition was comprised of cash of \$212,924,527, Units of the Fund with a value of \$89,474,390, a payable for acquired businesses of \$5,617,322 for a working capital adjustment and a note payable of \$23,625,000.

2. INITIAL PUBLIC OFFERING AND BUSINESS ACQUISITIONS - (Continued)

The acquisition was accounted for by the purchase method with the results of Supremex' operations included in the Fund's earnings from the date of acquisition. These consolidated financial statements reflect the allocation of the consideration to the assets acquired and liabilities assumed based on their fair values as follows:

As part of the acquisition 2,364,228 Units valued at \$23,642,280 were issued to management employees of Supremex for a cash consideration of \$23,642 to amend the then existing management profit sharing plan. These Units are held in escrow and 50% will be released on March 31, 2008, 25% on March 31, 2009 and 25% on March 31, 2010, subject to earlier release under certain circumstances or sold to Supremex for a nominal consideration of \$0.01 per Unit in the event of the voluntary departure of the employee or termination by Supremex for cause prior the expiry of the four year escrow period. The initial value of such Units, net of the cash consideration received, is recorded as deferred compensation and is recorded as compensation expense over the vesting period.

2. INITIAL PUBLIC OFFERING AND BUSINESS ACQUISITIONS - (Continued)

The payable to Cenveo relates to an adjustment based on the working capital of the acquired businesses which adjustment should be finalized during the third quarter of 2006. This is the only item that could require an adjustment to the purchase price allocation which will be made when known.

On April 28, 2006 the underwriters exercised in full their over-allotment option, resulting in the issuance by the Fund of 2,500,000 additional Units at a price of \$10 per Unit for gross proceeds of \$25,000,000 and net proceeds of \$24,090,988 after deducting \$909,012 which represents the underwriters' fees of \$1,375,000 less related future income taxes of \$465,988. The net cash proceeds were used by the Fund to repay the note payable to Cenveo.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles which require management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. By their nature, these estimates are subject to measurement uncertainty. The effect on the financial statements of changes in such estimates in future periods could be material and would be accounted for in the period the change occurs.

The financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the accounting policies summarized below:

Principles of consolidation

The consolidation financial statements include the accounts of the Fund and its subsidiaries. All significant intercompany accounts and transactions are eliminated upon consolidation. The consolidated financial statements are for the 92 days period from March 31, 2006, the date of commencement of operations, to June 30, 2006 inclusive and accordingly no comparative information is provided.

Net earnings per Unit

Net earnings per Unit are calculated by dividing net earnings by the weighted average number of Units outstanding during the period. For the purpose of the weighted average number of Units outstanding, Units are determined to be outstanding from the date they are issued. The Units issued relating to the over-allotment option on April 28, 2006 have been considered issued since March 31, 2006 since there was no contingencies that would result in these Units not being issued.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Cash and cash equivalents

Cash and cash equivalents include cash less amounts drawn under the operating revolving credit facility.

Inventories

Raw materials are carried at the lower of cost, determined on a first-in, first-out basis, and replacement cost. Work in process and finished goods are carried at the lower of cost, including labour and overhead, determined on a first-in, first-out basis, and net realizable value.

Property, plant and equipment

Property, plant and equipment are recorded at cost. Amortization is computed under the straight-line method over the following estimated useful lives:

Buildings and building improvements

Leasehold improvements

Machinery and equipment

Over the terms of the leases

7 to 15 years

Office equipment

3 to 5 years

Computer equipment

3 years

Long-lived assets

Long-lived assets, including property plant and equipment, are tested for impairment whenever events or changes in circumstances indicate that the carrying value of the assets may not be fully recoverable. Impairment is assessed when the undiscounted expected future cash flows derived from an asset are less than its carrying amount. Impairment losses are recognized for the amount by which the carrying value of an asset exceeds its fair value. The estimated useful lives of all long-lived assets are periodically reviewed and revised if necessary.

Deferred financing costs

Financing costs related to credit facilities are capitalized and amortized on a straight line basis over the four-year term of the credit facilities.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2006 Unaudited

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Intangible assets

Intangible assets are assets acquired that lack physical substance and that meet the specified criteria for recognition apart from goodwill. Intangible assets acquired are comprised mainly of customer relationships and non-compete agreements which are amortized on a straight-line basis over ten years.

The customer relationships are tested for recoverability whenever events or changes in circumstances indicate that its carrying amount may not be recoverable. When the carrying value of customer relationships and the non-compete agreements is less than its net recoverable value as determined on an undiscounted basis, an impairment loss is recognized to the extent that fair values, measured as the discounted cash flows over the life of the assets when quoted market prices are not readily available, are below the asset carrying value.

Goodwill

Goodwill represents the excess of the acquisition cost over the fair value of net assets of business acquired. Goodwill is tested for impairment annually or more often if events or changes in circumstances indicate that it might be impaired. The impairment test consists of a comparison of the fair value of the reporting unit to which goodwill is assigned with its carrying amount. Any impairment loss in the carrying amount compared with the fair value is charged to earnings in the year in which the impairment occurs. The Fund uses the discounted cash flows method to determine the fair value of its reporting unit.

Revenue recognition

The Fund recognizes revenue when persuasive evidence of an arrangement exists, product delivery has occurred, pricing is fixed or determinable, and collection is reasonably assured. In addition, when the customer requests a bill and hold, revenue is recognized when the customer is invoiced for goods that have been produced, packaged and made ready for shipment. These goods are segregated from inventory which is available for sale, the risk of ownership of the goods is assumed by the customer, and the terms and collection experience on the related billings are consistent with all other sales.

The Fund has rebate agreements with certain customers. These rebates are recorded as reductions of revenue and are accrued using revenue data and rebate percentages specific to each customer agreement.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2006 Unaudited

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Employee future benefits

The Fund maintains defined benefit pension plans, two of these plans are hybrid by also having a defined contribution component, covering substantially all of its employees. The acquired businesses have also provided in the past post retirement and post employment benefits plans to a limited number of employees covering health care, dental care and life insurance coverage.

The Fund accrues its obligations for the defined benefits component of its pension plans and other post retirements and employment benefits and related costs, net of plan assets. The cost of pensions and other retirement benefits earned by employees is actuarially determined, at least every three years, using the projected benefit method prorated on service and management's best estimate of plan's investment performance, salary escalating, retirement age of employees and estimated health care costs. For the purpose of calculating the expected return on plan assets, those assets are valued at fair market value. The most recent actuarial valuations were performed on December 31, 2005.

Past service costs are amortized on a straight-line basis over the remaining service period of active employees ("EARSL"), which is 15 years. The excess of net actuarial gain or loss over 10% of the greater of the benefit obligation and the fair value of plan assets is amortized over the EARSL.

For the defined contribution component of a pension plan, the pension expense is equal to the contributions paid by the Fund.

Income taxes

The Fund's corporate subsidiaries are subject to corporate income taxes and use the liability method of accounting for income taxes. Under the liability method, future income tax assets and liabilities are determined based on temporary differences between the financial reporting and tax bases of assets and liabilities and are measured using tax rates substantially enacted at the balance sheet date. The effect of changes in income tax rates on future income tax assets and liabilities is recognized in earnings in the period that the change becomes substantially enacted.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2006 Unaudited

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Income taxes – (Continued)

Under the terms of the Income Tax Act (Canada), the Fund is not subject to income taxes to the extent that its taxable income in a year is paid or payable to a unitholder. Accordingly, no provision for current income taxes for the Fund is made. In addition, the Fund is not subject to the recommendations of CICA Section 3465, as the Fund is contractually committed to distribute to its unitholders all or virtually all of its taxable income and taxable capital gains that would otherwise be taxable in the Fund. The Fund intends to continue to meet the requirements under the Income Tax Act (Canada) applicable to such trusts, and there is no indication that the Fund will fail to meet those requirements.

Foreign currency

The Fund follows the temporal method to translate its foreign currency balances and transactions including its integrated foreign subsidiary. Under this method, monetary assets and liabilities are translated at the rates of exchange in effect at balance sheet date and the other items in the balance sheet and statement of earnings are translated at the exchange rates in effect at the date of transaction. Exchange gains and losses are included in net earnings for the year.

Financial instruments

The Fund uses interest rate swap to hedge the interest rate exposure. The Funds objective is to offset gains and losses resulting from interest rate exposure with losses and gains on the derivative contract used to hedge it. The Fund does not use derivative contracts for speculative purposes. To qualify as a hedge, the hedge relationship is designated and formally documented at inception detailing the particular risk management objective and strategy for the hedge, which includes the item and risk that is being hedged, as well as how effectives is being hedge. The derivative used must be highly effective in accomplishing the objective of offsetting changes in cash flows for the risk being hedged. If a hedge relationship is found to be ineffective, it not longer qualifies as a hedge and any excess gain or losses attributable to such ineffectiveness, as well as subsequent changes in fair value, are recognized in earnings.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2006 Unaudited

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Financial instruments – (Continued)

The Fund has designated its interest rate swap on its variable interest term credit facility as hedge against the fluctuation in interest expense due to change in the interest rate. Accordingly, the fair value of this financial instrument and any changes thereto has not been recorded in the consolidated financial statements. Gains and losses on financial instruments that qualify as hedge are recognized at the time the hedged expenses are incurred.

The fair value of this financial instrument is disclosed in note 17. Such fair value estimates is not necessarily indicative of the amounts, the Fund might pay or receive in actual market transactions. Potential transaction costs have also not been considered in estimating fair value.

7. POST-RETIREMENT BENEFITS

(a) Pension Plans

The Fund maintains three defined benefit pension plans covering certain salaried and hourly employees who have bargained for such benefits. Two of these pension plans are hybrid because they also have a defined contribution component.

As at June 30, 2006, the surplus of the fair value of plans assets over the benefit obligation is \$5,397,963 and is recognized as accrued pension benefit asset. The total benefit cost in the pension plan for the 92 days period ended June 30, 2006 is approximately \$440,000.

The assumptions used in computing the benefit obligation were as follow:

	June 30	
	2006	
	%	
Discount rate of projected benefit obligation	5.50	
Discount rate for net pension cost	5.75	
Expected return on plan assets	7.00

11. SECURED CREDIT FACILITIES

The Fund has senior secured credit facilities consisting of a revolving operating credit facility of up to \$40 million and a term credit facility of \$75 million. Both facilities bear interest at a floating rate based on the Canadian prime rate, U.S. base rate, LIBOR or bankers' acceptance rates plus an applicable margin to those rates.

The revolving operating credit facility may be used for general corporate purposes, working capital requirements and permitted acquisitions. Both facilities mature on March 31, 2010 and there are no scheduled repayments of principal required prior to maturity.

Amounts drawn under revolving and term credit facilities are as follows:

	June 30, 2006 \$
Revolving credit facility	1,068,088
Term credit facility	75,000,000
	76,068,088

As at June 30, 2006, the interest rates on the revolving and term credit facilities were 6.0% and 5.75% respectively. The Fund entered into an interest swap agreement for its term credit facility to pay a fixed rate of 5.426% until March 31, 2007, 5.663% form April 1, 2007 to March 31, 2008, 5.866% from April 1, 2008 to March 31, 2009 and 6.067% from April 1, 2009 to March 31, 2010 (see note 17).

Under the terms of the credit facility, the Fund is required, amongst other conditions, to meet certain covenants. The Fund was in compliance of these covenants as at June 30, 2006.

The credit facilities are collateralized by hypothec and security interest covering all present and future assets of the Fund and its subsidiaries.

On May 2, 2006, Canadian Federal budget announced several general corporate income tax rate reductions, which will gradually be reduced from 22.12% to 19% in 2010 which was enacted on June 22, 2006. In addition, during the second quarter of 2006 other provincial tax rate reductions became enacted. As a result, at the end of the second quarter, the Fund has reassessed its future income tax assets and liabilities in light of the new enacted tax rates.

13. UNITHOLDERS' EQUITY

Fund Units

The Fund Declaration of Trust provides that an unlimited number of Units may be issued. Each Unit is transferable and represents an equal undivided beneficial interest in any distributions from the Fund and in the net assets of the Fund. All Units are of the same class with equal rights and privileges, except that Cenveo, pursuant to the Fund Declaration of Trust, may designate one trustee as long as they own not less than 10% of the total Units issued. Each Unit entitles the holder to participate equally in all allocations and distributions and to one vote at all meetings of unitholders for each whole unit held.

13. UNITHOLDERS' EQUITY – (Continued)

The Fund Units are redeemable at any time at the option of the holder at the lesser of 90% of the weighted average price of the Fund Unit during the last ten trading days of the Units on an open market and the closing market price on the redemption date. All redemptions are subject to a maximum of \$50,000 in cash redemptions by the Fund at any particular month. Redemptions in excess of this amount will be paid by way of a distribution in specie of the assets of the Fund.

Employees Units

As part of the acquisition 2,364,228 Units valued at \$23,642,280 were issued to management employees of Supremex for a cash consideration of \$23,642 to amend the then existing management profit sharing plan. These Units are held in escrow and 50% will be released on March 31, 2008, 25% on March 31, 2009 and 25% on March 31, 2010, subject to earlier release under certain circumstances or sold to Supremex for a nominal consideration of \$0.01 per Unit in the event of the voluntary departure of the employee or termination by Supremex for cause prior the expiry of the four year escrow period. Employees are allowed to distribution declared on these units. The initial value of such Units, net of the cash consideration received, is recorded as deferred compensation and is recorded as compensation expense over the vesting period.

Over-Allotment option

On April 28, 2006, the underwriters exercised in full their over-allotment option, resulting in the issuance by the Fund of 2,500,000 additional Units on the same terms as the initial public offering.

In addition, as consideration for the business acquisitions, the Fund issued a note payable which was repaid with the net proceeds of the over-allotment option.

13. UNITHOLDERS' EQUITY – (Continued)

Basic and diluted net earnings

The number of Units used in the determination of the basic weighted average number of Units outstanding includes the 2,500,000 Units relating to the over-allotment option as if they would have been issued since March 31, 2006 since there was no contingencies that would result in these Units not being issued.

14. DISTRIBUTION

The Fund makes monthly distributions of its available cash to unitholders of record on the last business day of each month, payable on or about the 15th day of the following month. Distributions to unitholders are recorded on an accrual basis. The June distribution in the amount of \$2,999,658 was declared and accrued in June 2006 and paid to unitholders on July 17, 2006 (see note 19). Distributions for the period from April 1, 2006 to June 30, 2006 are as follows:

			Per Unit	Distribution amount

15. COMMITMENTS, CONTINGENCIES AND GUARANTEES

(a) Operating lease and other commitments

The Fund has entered into operating leases mainly for buildings. The minimum lease payments required under such leases by fiscal years and thereafter are as follows:

	\$
2006	1,069,968
2007	2,029,370
2008	1,579,582
2009	1,238,339
2010	972,273
Thereafter	564,487

As at June 30, 2006, the Fund also had a firm commitment to purchase machinery and equipment amounting to approximately \$484,000 which will be paid in 2006.

15. COMMITMENTS, CONTINGENCIES AND GUARANTEES – (Continued)

(b) Contingencies

In the normal course of its operations, the Fund is exposed to various claims, disputes and legal proceedings. These disputes often involve numerous uncertainties and the outcome of the individual cases is unpredictable. According to management, their resolution should not have a significant negative impact on the Fund's financial position.

One of the Fund's subsidiaries is being investigated by the Canadian Competition Bureau for alleged price maintenance by certain of its customers. Management believes that it is unlikely that this investigation would result in any material liability to the Fund.

In addition to the price maintenance investigation, the Competition Bureau has also indicated its interest in broadening the inquiry, or starting a new inquiry, to investigate whether price fixing or market sharing took place in the 1980's and 1990's in respect of the supply of envelopes market in Canada. While Competition Bureau activity is continuing, management is presently not able to assess or predict the scope or outcome of the current inquiry or any new inquiry that may be commenced and the impact, if any, of such proceedings on the Fund's financial position.

The Fund exposure toward the above matters is mitigated by the fact that the acquisition agreement of the Fund businesses contains representations and warranties and related indemnities for any liabilities arising before September 30, 2008 from Cenveo in favour of the Fund.

(c) Guarantees

In the normal course of business, the Fund has entered into agreements that contain features which meet the definition of a guarantee. These agreements may require the Fund to compensate the counterparties for costs and losses incurred as a result of various events including breaches of representations and warranties, loss of or damages to property, claims that may arise while providing services and environmental liabilities. These agreements provide for indemnification and guarantees to counterparties as follows:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

15. COMMITMENTS, CONTINGENCIES AND GUARANTEES – (Continued)

(c) Guarantees – (Continued)

Operating leases

The Fund has general indemnity clauses in many of its real estate leases whereby it, as lessee, indemnifies the lessor against liabilities related to the use of the leased property. These leases mature at various dates through October 2011. The nature of the agreements varies based on the contracts and therefore prevents the Fund from estimating the total potential amount it would have to pay to lessors. Historically, Supremex has not made any significant payments under such agreements, has insurance coverage for certain of the obligations undertaken, and, as at June 30, 2006, the Fund has not recorded any liability associated with these indemnifications.

Business disposals

As a result of the sale of business operations, shares or net assets, Supremex may occasionally agree to provide indemnity against claims from previous business activities. The nature of these indemnifications prevents the Fund from estimating the maximum potential liability that it could be required to pay to guarantee parties. Historically, Supremex has not made any significant indemnification payments, and, as at June 30, 2006 the Fund has not recorded any liability associated with these indemnifications.

16. SEGMENTED INFORMATION

The Fund currently operates in one business segment being the manufacturing and sale of envelopes. The Fund's net assets amounted to \$275,773,237 in Canada and \$965,605 in United States as at June 30, 2006. The Fund's revenue amounted to \$40,833,175 in Canada and \$7,335,980 in the United States for the 92 days period ended June 30, 2006.

17. FINANCIAL INSTRUMENTS

Interest rate and foreign exchange risk

The Fund is exposed to interest rate risk on its secured credit facilities. The Fund has entered into an interest swap agreement for the full amount of its term credit facility to pay a fixed rate of 5.426% until March 31, 2007, 5.663% from April 1, 2007 to March 31, 2008, 5.866% from April 1, 2008 to March 31, 2009, and 6.067% from April 1, 2009 to March 31, 2010. As described in note 3, the Fund accounts for this financial instrument as a hedge. As of June 30, 2006, the mark-to-market on the Fund's interest rate swap is a gain of \$677,055.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

17. FINANCIAL INSTRUMENTS – (Continued)

The Fund operates in Canada and in the United States which give rise to a risk that its earnings and cash flows may be adversely impacted by fluctuations in the exchange rate between the US and Canadian dollar. In the recent past, purchases and capital expenditures in US dollars were similar to the revenue earned in US dollars which have limited the Fund's foreign exchange exposure. Cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities include balances denominated in US dollars at the end of the period.

Fair value

The carrying value of the accounts receivable, accounts payable and accrued liabilities and payable to Cenveo are a reasonable estimate of their fair value because of their short maturity.

The fair value of the secured credit facilities approximates their carrying value based on market rates available to the Fund for financial instruments with similar risks, term and maturity.

Credit risk and customer concentration

The Fund performs ongoing credit evaluation of customer and provisions have been set-up for potential credit losses. As at June 30, 2006, no customer accounted for over 10% of total accounts receivable or revenues.

18. RELATED PARTY TRANSACTIONS

The Fund had the following transactions with Cenveo which were conducted in the normal course of business and recorded at the exchange value:

	Three months ended June 30, 2006 \$	92 days period ended June 30, 2006 \$
Revenue	1,584,162	1,584,162
Purchases of raw materials	516,978	516,978

19. SUBSEQUENT EVENT

On July 13, 2006, the Fund declared the distribution for the period from July 1, 2006 to July 31, 2006 on the amount of \$2,999,658 or \$0.0958 per Unit, for registered Unitholders on July 31, 2006. This distribution will be paid on August 15, 2006.
